

Keeping Yourself Well

DRIVING OUT CATARRH

If people knew how the presence of catarrh is a constant menace, they would have none of it. It infests some part of the delicately adjusted body and makes it useless, thus throwing on the other organs more than their share of work. It affords a carefully prepared seed-bed for the germs of cold, grip, tuberculosis and pneumonia. It so disarranges Nature's delicate plans as to make possible asthma, hay fever and other respiratory disorders. It spreads until it becomes systemic, thus involving many organs and debilitating the entire system with serious results.

Catarrh is easily neglected, and it rarely gets well of itself. It needs proper medicinal correction. For almost half a century many thousands have found help in Peruna, a valuable tonic with special efficacy in catarrhal conditions. The aim is to clean out waste matter, to dispel the catarrhal inflammation, and tone up the whole system. Its users willingly testify that it has done all this and even more for catarrhal sufferers. What it has done is the best proof of what it will do. You may rely on Peruna.

Tablet form it is pleasant to take and easy to administer.
